

Tanya C

Graphic Designer

Professional Summary

- Experienced Graphic Designer and Presentation Graphics Specialist with 5+ years of experience designing high-quality digital, print, and presentation materials for enterprise organizations in fast-paced corporate environments.
- Expert in Adobe Creative Suite including Adobe InDesign, Photoshop, Illustrator, and Acrobat Pro, with advanced proficiency in creating marketing collateral, brochures, presentations, infographics, event materials, and print-ready artwork.
- Advanced proficiency in Microsoft PowerPoint, Microsoft Teams, Word, and Excel, creating executive presentations, pitch books, branded templates, meeting materials, and client-facing communications.
- Strong expertise in typography, editorial design, information graphics, data visualization, brand identity, and visual storytelling, transforming complex business information into compelling and engaging creative solutions.
- Experienced in designing digital campaigns, print materials, event signage, promotional assets, illustrations, icons, logos, diagrams, and marketing communications while ensuring consistency with corporate brand standards.
- Proven ability to collaborate with Creative Directors, writers, account managers, project managers, vendors, and cross-functional stakeholders to develop innovative creative solutions that meet business objectives and brand guidelines.
- Skilled in managing multiple concurrent projects in high-volume, deadline-driven environments while consistently delivering high-quality work on time and within project scope.
- Strong understanding of digital and print production processes, layout design, color theory, typography, and production-ready artwork for both print and digital platforms.
- Experienced in maintaining rigorous quality control, ensuring accuracy, visual consistency, formatting, and compliance with corporate branding standards across all deliverables.
- Knowledge of motion graphics, presentation animation, Adobe Animate, Canva, Figma, and basic Adobe Premiere Pro and After Effects to support multimedia communication projects.
- Excellent communication, organizational, and stakeholder management skills with the ability to present creative concepts, incorporate feedback, and thrive in collaborative, fast-paced design environments.
- Passionate about creating innovative visual communications that enhance brand awareness, support marketing campaigns, improve customer engagement, and deliver exceptional user experiences.

PROJECT EXPERIENCE:

Client: Mastercard, NY |

Jun 2024 – Present

Role: Graphic Designer

Responsibilities

- Designed and produced digital and print marketing materials, executive presentations, promotional assets, meeting deliverables, and branded communication materials using Adobe InDesign, Photoshop, Illustrator, and Microsoft PowerPoint.
- Collaborated with Creative Directors, writers, account managers, project managers, and cross-functional stakeholders to develop innovative creative solutions aligned with corporate brand standards.
- Created brochures, presentation templates, infographics, editorial layouts, data visualizations, process diagrams, event graphics, and promotional collateral for internal and external business initiatives.
- Developed brand-compliant visual communications, ensuring consistency across presentations, print materials, marketing campaigns, and corporate communications.
- Applied strong typography, layout design, color theory, and visual storytelling principles to transform complex business information into engaging creative assets.
- Designed print-ready artwork and digital assets while maintaining high standards for quality, accuracy, formatting, and production specifications.
- Managed multiple concurrent creative projects in a fast-paced Agile environment, consistently meeting deadlines while maintaining exceptional quality standards.
- Worked closely with business stakeholders to clarify project scope, timelines, design requirements, and creative direction while incorporating feedback throughout the design process.
- Performed quality assurance reviews to ensure all deliverables met branding guidelines, editorial standards, and client expectations before final production.
- Supported marketing campaigns, executive meetings, product communications, and corporate events through visually compelling design solutions.
- Maintained awareness of emerging design trends, digital technologies, typography, print production techniques, and multimedia design to deliver modern, innovative creative solutions.

Environment:

Adobe InDesign, Adobe Photoshop, Adobe Illustrator, Adobe Acrobat Pro, Microsoft PowerPoint, Microsoft Word, Microsoft Excel, Microsoft Teams, Canva, Figma (Basic), Adobe Bridge, Jira, Confluence, Git, Agile.

Client: Enbridge | Mar 2021 – Jul 2023

Role: Graphic Designer

Responsibilities

- Designed and developed digital and print marketing materials, executive presentations, promotional collateral, meeting deliverables, brochures, and branded communication assets using Adobe InDesign, Photoshop, Illustrator, and Microsoft PowerPoint.
- Collaborated with Creative Directors, writers, account managers, project managers, and cross-functional stakeholders to conceptualize and execute creative solutions aligned with corporate and brand guidelines.
- Created editorial layouts, infographics, data visualizations, process diagrams, illustrations, event graphics, and presentation templates to support corporate communications, internal campaigns, and business initiatives.

- Applied strong typography, layout design, visual storytelling, and branding principles to transform complex technical and business information into engaging, easy-to-understand visual communications.
- Produced print-ready artwork and digital assets while ensuring accuracy, quality control, brand consistency, and compliance with print production standards.
- Managed multiple creative projects simultaneously, effectively prioritizing workloads and consistently delivering high-quality work within aggressive project timelines.
- Partnered with business stakeholders to define project scope, gather design requirements, incorporate feedback, and deliver creative solutions that met business objectives and client expectations.
- Supported marketing campaigns, executive meetings, training materials, corporate events, and internal communications by designing compelling visual assets across multiple media platforms.
- Maintained awareness of current graphic design trends, digital and print technologies, typography, illustration techniques, and multimedia design to deliver innovative and modern creative solutions.
- Performed comprehensive quality assurance reviews to ensure all creative deliverables met corporate branding standards, editorial guidelines, and production requirements before final release.
